

UI/UX

Experiment 5

roll no:231701054

AIM:

To create a car rental app

Tools:

Figma

Procedure:

-> to design a car rental app so that every one can have their own luxury car

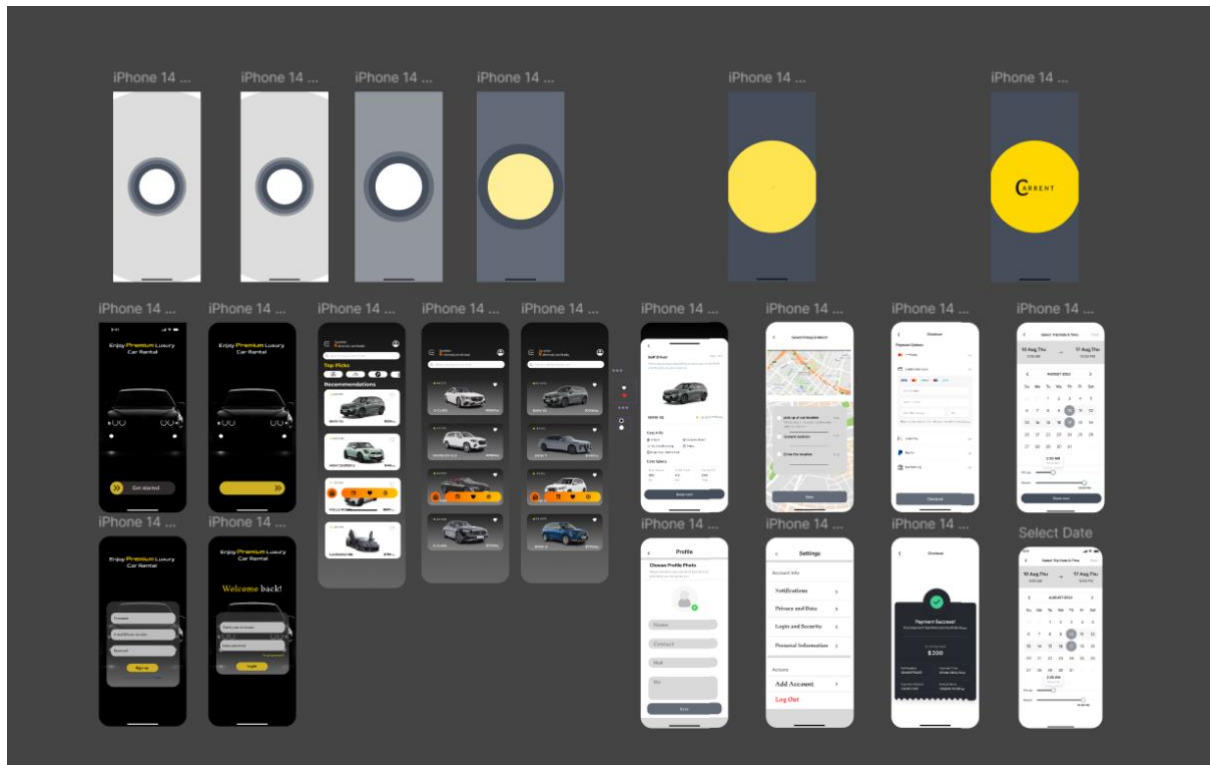

-> like always changing the background and adding details to it.

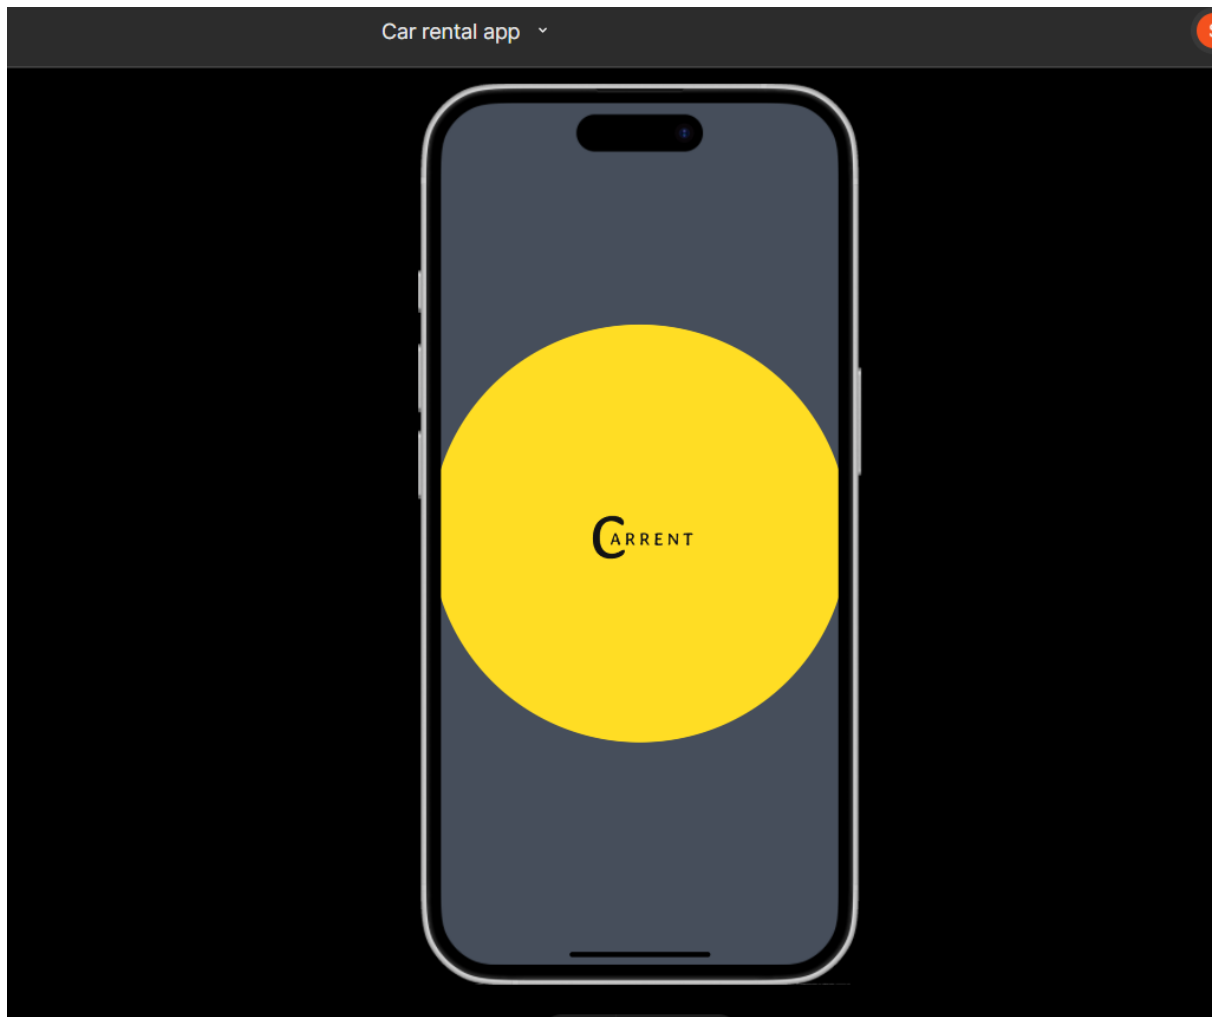

-> by adding brands and their models we have to ensure that user understand everything.

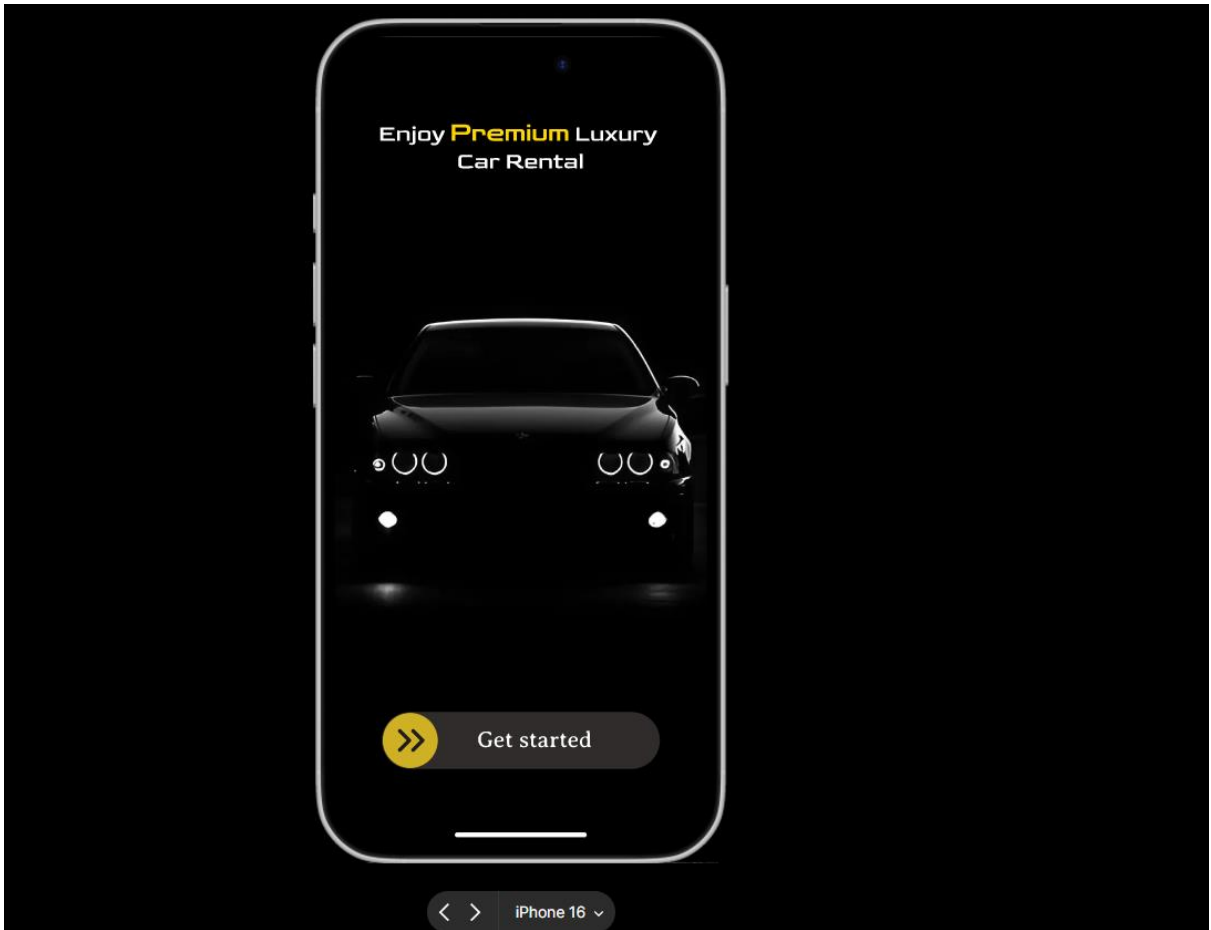

-> by giving details and everything and providing information.

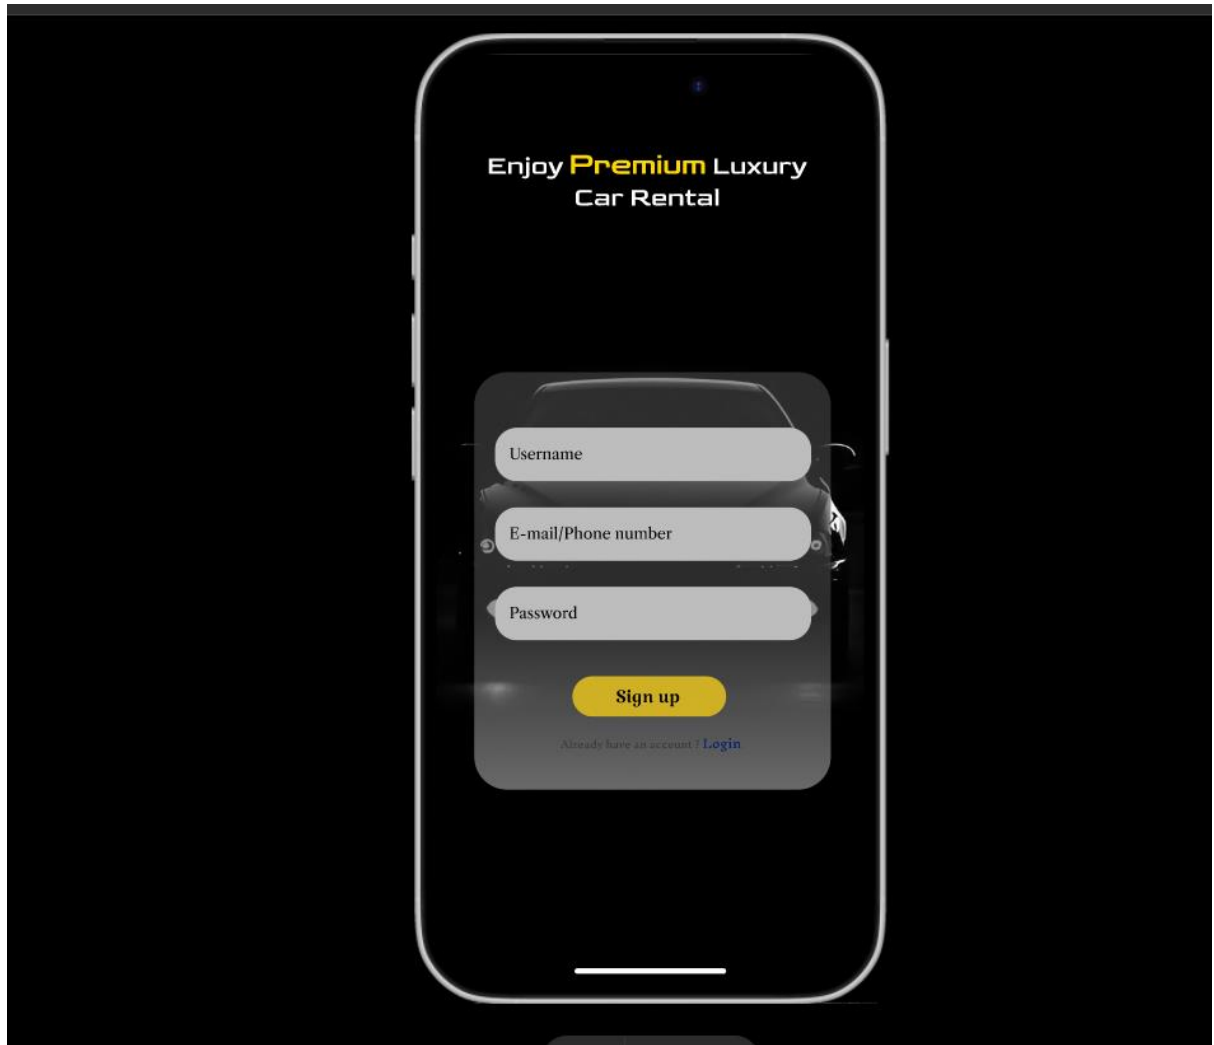

->finally a payment page is created.

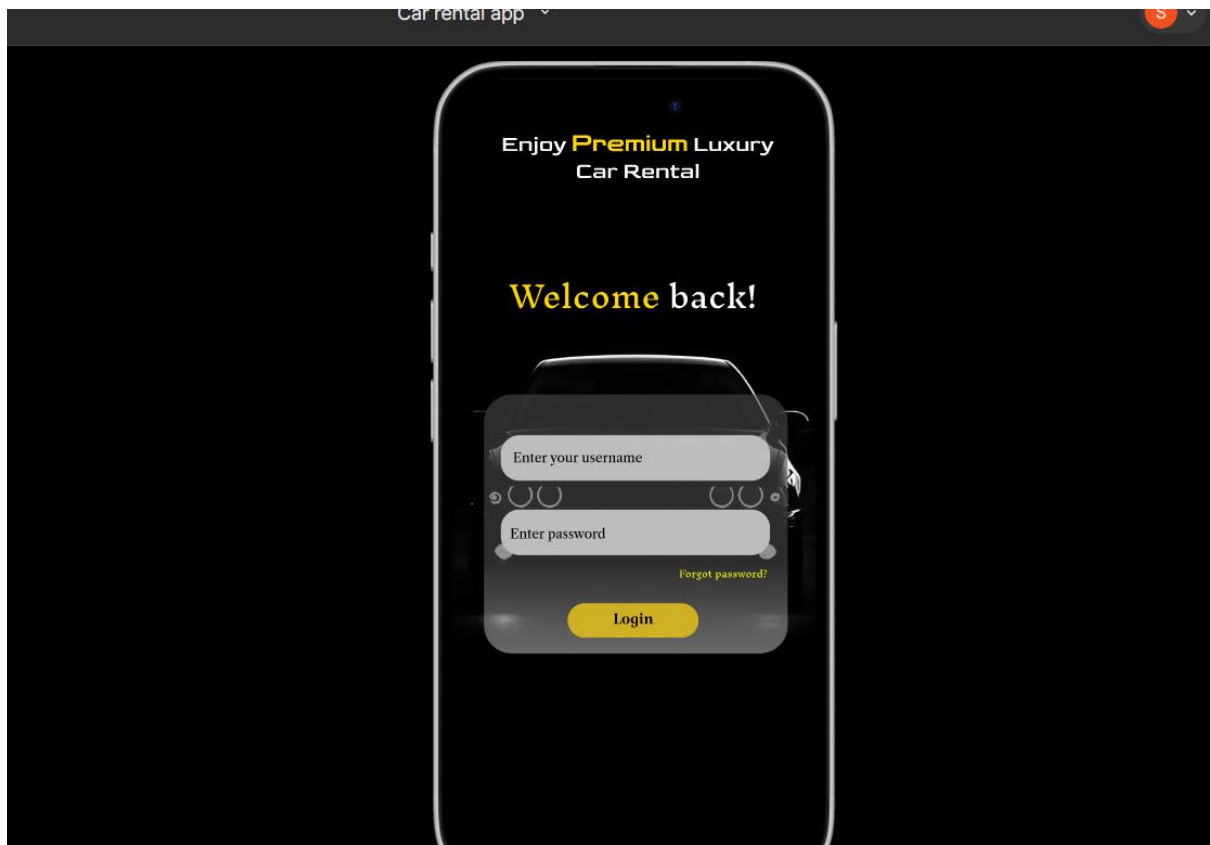

Output:

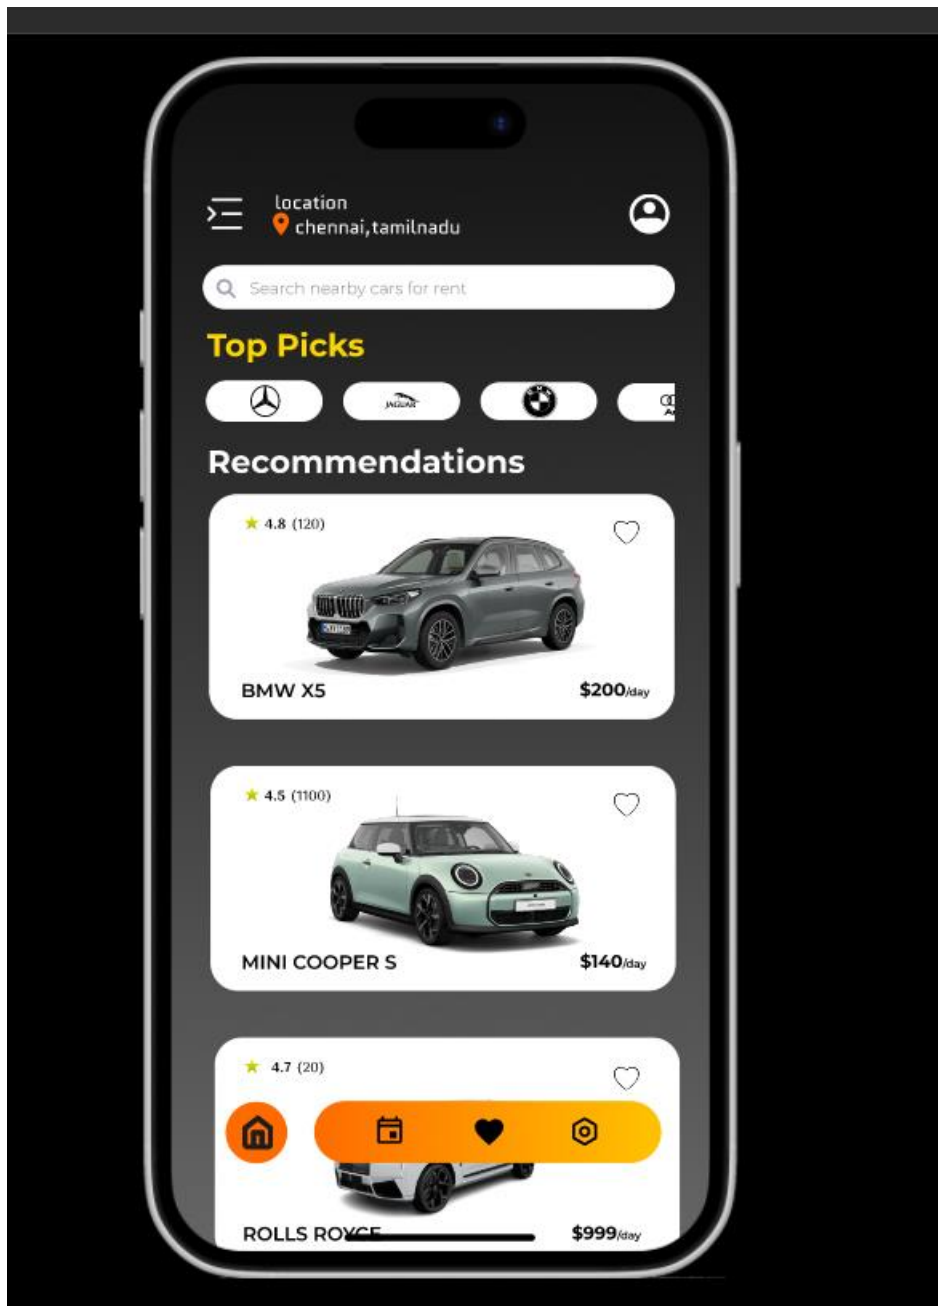

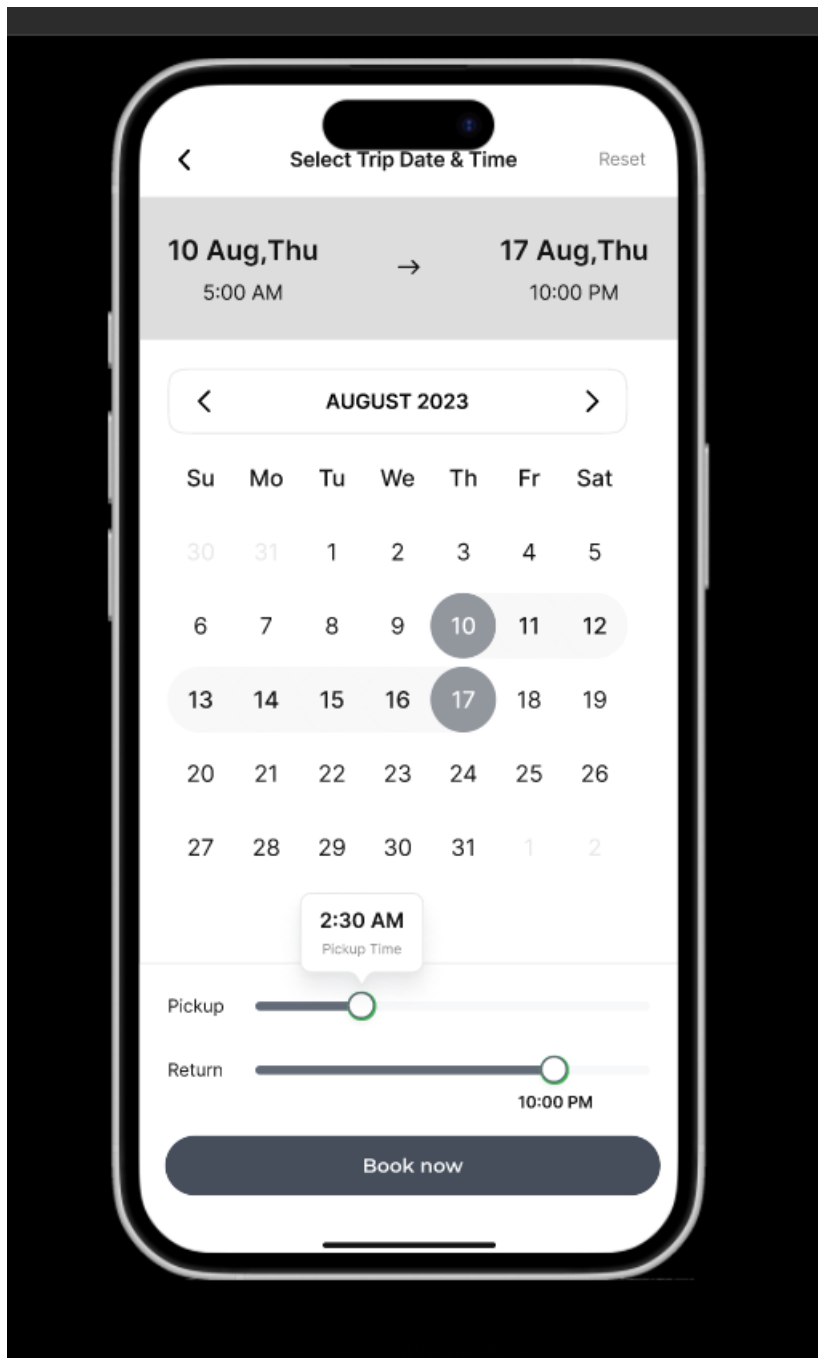

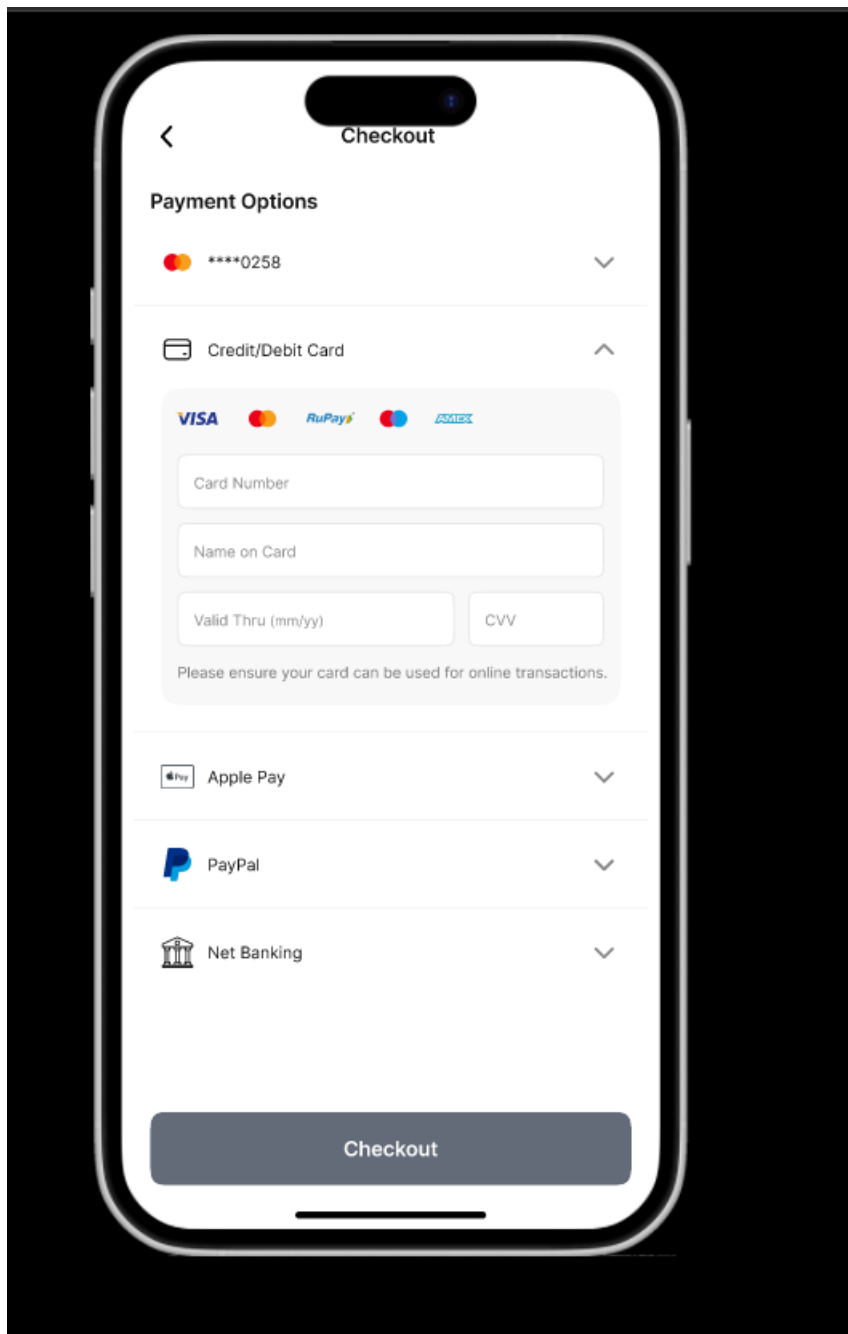

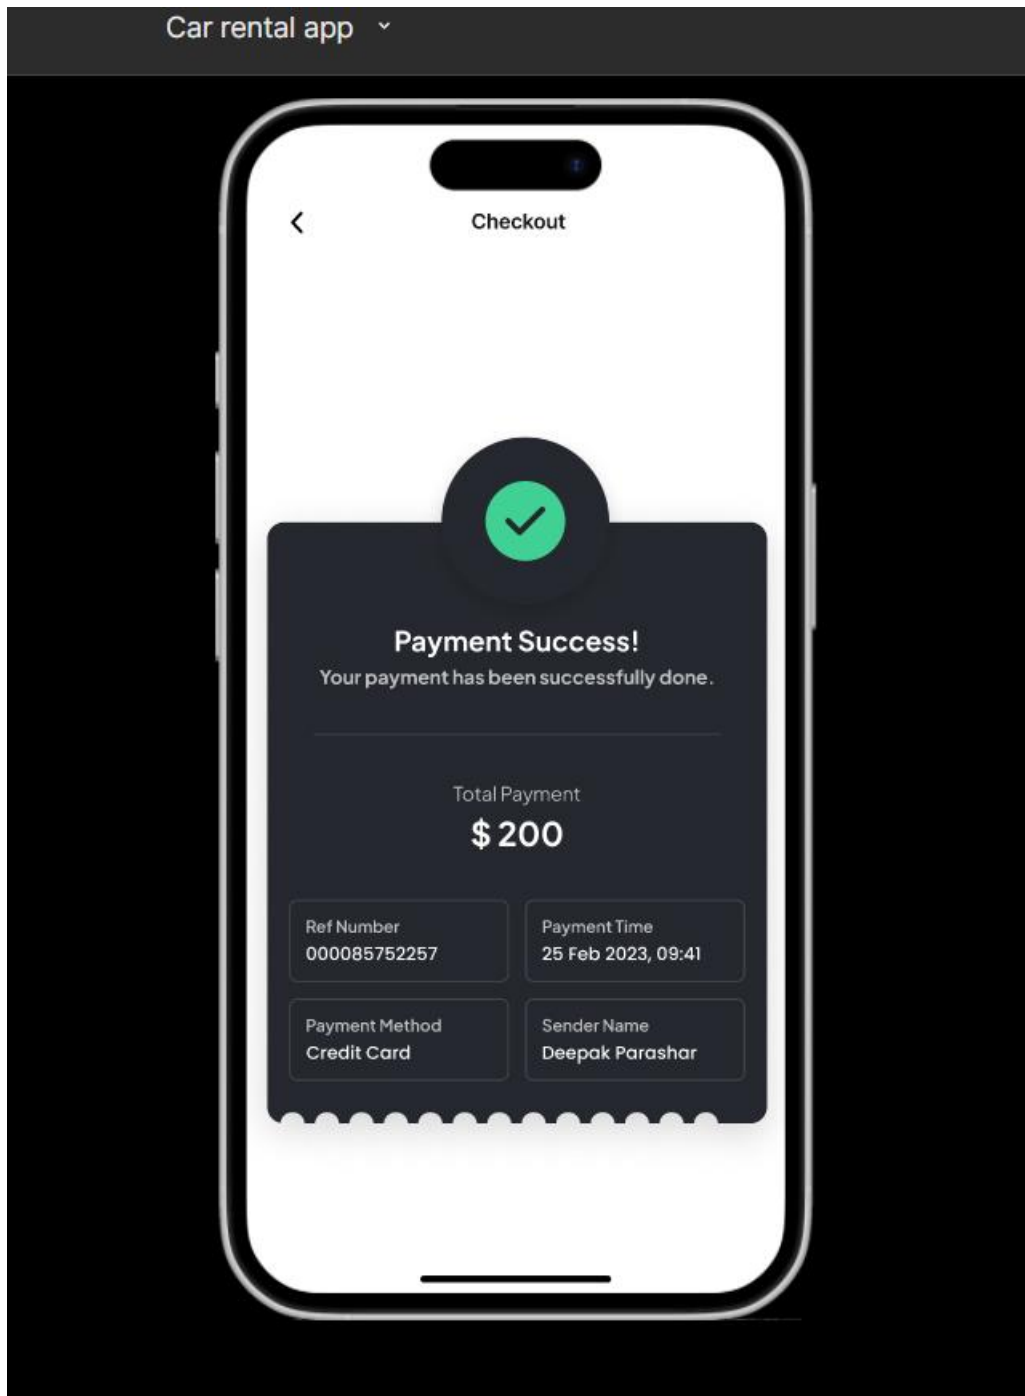

Result:

The desired user interface has been created and previewed.
